

## Valve Batteries

### Type 05.2.02.013.02

#### Technical data

|                                                   |                                                     |
|---------------------------------------------------|-----------------------------------------------------|
| Type of actuation                                 | vacuum pilot control                                |
| Nominal size                                      | 13 mm                                               |
| Pump connection P                                 | internal thread R 1/2"                              |
| Working connection A                              | internal thread R 1/2"                              |
| Ventilation connection R                          | 13 mm                                               |
| Connection 1 +2                                   | internal thread R 1/8"                              |
| Function                                          | normally closed NC                                  |
| Operating pressure                                | max. vacuum 99,9 %                                  |
| Ambient temperature                               | max. 80° C                                          |
| Duty cycle ED                                     | 100 %                                               |
| Enclosure protection in compliance with DIN 40050 | IP 00<br>IP 65 with connector (Art.-No. 229/000002) |

#### Power consumption (per coil)

|                      |        |
|----------------------|--------|
| 24 V/DC              | 10 W   |
| 24 V/AC and 230 V/AC | 8,5 VA |

#### Current consumption (per coil)

|          |         |
|----------|---------|
| 24 V/DC  | 0,417 A |
| 24 V/AC  | 0,354 A |
| 230 V/AC | 0,039 A |

#### Standard voltages

|          |                     |
|----------|---------------------|
| 24 V/DC  | Art.-No. 284/013021 |
| 24 V/AC  | Art.-No. 284/013022 |
| 230 V/AC | Art.-No. 284/013025 |

Other voltages available on inquiry
